

Hygrostats

HG80

Hygrostat HG80 and Hygrostat HG80-2
with **Polyga®** humidity measuring element,
with one or two changeover contacts
measurement range 30...100%rh.

HG80Exi

Hygrostat HG80Exi and Hygrostat HG80Exi-2
with **Polyga®** humidity measuring element
for intrinsically safe circuits
with one or two changeover contacts
measurement range 30...100%rh.

HG120

Room Hygrostat HG120
with **Polyga®** measuring element with one or two changeover
contacts
measurement range 30...100%rh

HGmini

**Room Hygrostat HGMini
HGMini-i
and HGMini-Schnapp**
with **Polyga®** measuring element
with one or two changeover contacts
measurement range 30...10%rh
dimensions: 55x85x36mm

Duo

Room Hygro-thermostat DUO
measurement range for humidity 30...100%rh
measurement range for temperature 10..35°C

HM80

Hygro Module HM80

with **Polyga®** measuring element with a changeover contact,
measurement range 30...100%rh,
integrated model

HM120

Hygro Module HM120

with **Polyga®** measuring element with changeover contact,
measurement range 30...100%rh.

FAS

Humidity add-on switch FAS

Switch to monitor the formation of condensed water with Polyga®
measuring element

C 4.13

Humidity and Temperature Sensors FGO and FGS

Humidity sensors for condensation control
with switching output.
