

## Humidity Sensors, Humidity/Temperature Sensors with the robust Polyga® measuring element

---

### (T)FG80

#### Humidity Sensors FG80...

#### Humidity-Temperature Sensors TFG80...

with **Polyga®** humidity measuring element for measuring relative air humidity and temperature - for rooms and air channels.

(T)FG80H with resistance output up to 10k ohms

(T)FG80J each 0(4)...20mA or 0...10V DC for U=15...30V DC

(T)FG80AC each 0(4)...20mA or 0...10V DC for U=24V AC

### (T)FG80Exi

#### Humidity Sensores FG80Exi

#### Humidity-Temperature Sensors TFG80Exi

with **Polyga®** humidity measuring element for measuring relative air humidity and temperature. For intrinsically safe circuits.

### (T)FG120H

#### Humidity Sensores FG120

#### Humidity-Temperature Sensors TFG120

with **Polyga®** measuring element for measuring of relative air humidity and temperature, for rooms.

### FM80

#### Humidity Module FM80

#### Humidity-Temperature Sensors TFM80

with **Polyga®** measuring element for measuring relative air humidity and temperature, integrated model
